

## **TO OUR DEAR TEACHER**

*Teachers are our light,  
They make our lives bright  
She gives us homework a little bit,  
And shout at us when we do not sit,  
She is educated and,  
Tries to make us like her,  
Her thoughts are just as soft as fur.  
She is smart and so pretty  
Without punishing, she shows her pity.  
The joy she brings to me every day.  
That I would always say  
Happy!happy!happy teacher's day.*

## **It is easy or difficult ?**

It's easy to understand but difficult to explain.  
It's easy to be a victor but difficult to be loser.  
It's easy to accept what other give but difficult to give what others expect.  
It's easy to question an answer but difficult to answer a question.  
It's easy to believe our elders but difficult to alter our beliefs.  
But remember,it's easy to express our feelings while difficult to feel the expressions.
